Please call our sales team for current prices.

Credit Accounts

Credit accounts are subject to a credit check and may be refused at the discretion of UK Packaging Supplies Ltd.

Free Consultation
Organise a Packaging Audit

Our professional, experienced and dedicated sales teams are ready to evaluate your packaging requirements. Once we understand how you use packaging, we can propose new solutions and cost saving initiatives, which could help you work more efficiently too.

Our Packaging Review can help you identify savings and process improvements in any or all of the following areas

- Damaged goods and returns
- Storage costs
- Packaging costs
- Design and efficiency
- Labour costs and automation
- Transportation
- Packaging management

Simply call or email us to arrange your free, no obligation Packaging Review – even a quick consultation could make a big difference.

It won't take long, and won't cost you a penny – we are confident that we will be able to suggest positive solutions and cost reduction initiatives.

Open your new business account today!

Business credit accounts are available, subject to a satisfactory credit check, allowing you up to 30 days credit

UK Packaging was incorporated on 11th October 1984.
From humble beginnings we have seen gradual, organic and managed growth making us one of the largest independent packaging companies in the country. We approach every day with the capabilities, energy and enthusiasm that forms part of the UK Packaging culture borne out of a desire to provide exceptional service and customer satisfaction.

MISSION STATEMENT

1. To provide the best packaging solutions, to meet and exceed our customers expectations, through outstanding customer service and value creation.

2. We will continue to develop key strategic partnerships with our suppliers, focusing on innovative and green products.

3. We are dedicated to customer responsiveness and are committed to continuous improvements in the products and service we provide.

4. To accomplish this we actively promote a culture of open communication and integrity, together with an on going pro-active dialogue with all our business partners.

ENVIRONMENTAL POLICY

It is the policy of UK Packaging Supplies Limited to ensure that its activities are managed so as to minimise any impact on the environment, so far as is reasonably practicable.

In order to achieve this:

- The Company will manage its product range to ensure that products in the range do not cause unacceptable environmental damage through its receipt, storage, and use or disposal phases.
- The Company will develop the energy efficiency of its vehicle fleets, so far as is reasonably practicable. Future purchases and leases of vehicles will take account of the environmental impact of the models selected.
- The Company will aim to improve the energy efficiency of its premises. Existing buildings will be adapted where practicable to improve their energy efficiency. When considering future purchases or leases, account will be taken of the energy efficiency of the building, and of the energy costs involved in running those buildings.
- Wherever possible the Company will seek to minimise waste:
  - Through reduction in unnecessary consumption
  - Through purchasing recycled products and packaging for its own use
  - By sending used products and packaging to be recycled
  - Through reuse of packaging received.
- Employees at all sites will be encouraged to travel to work using environment friendly methods such as car sharing or use of public transport where practical.
- The Safety & Environmental Manager is responsible for assisting management to implement the Company's Environmental Policy.
- The Company will comply with all UK environmental legislation.
- The Company will aim for continual improvement in order to lessen its impact on the environment

CARTONS AND BOXES

HOW TO MEASURE A CARTON

All metric measurements shown in this section are in mm

Dimensions are usually expressed as internal dimensions in mm as follows.

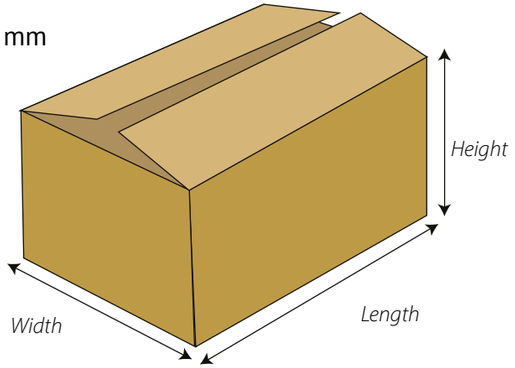
Length (L) x Width (W) x Height (H)

Length = *The longer dimension at the opening*

Width = *The shorter dimension at the opening*

Height = *The dimension from the top of the opening to the base.*

This is illustrated in the picture opposite

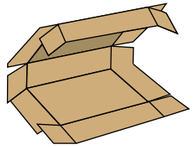


MADE-TO-MEASURE

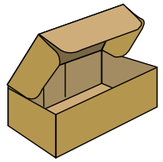
We can produce cartons in many styles. Our made-to-measure service is available on request. Shown here are our most popular made-to-measure carton styles.

FEFCO STYLE 0201
Regular lap end case.

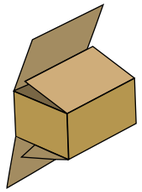
FEFCO STYLE 0711
Crash lock bottom



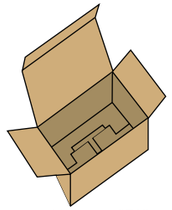
FEFCO STYLE 0409
Five panel wrap.



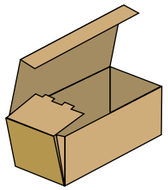
FEFCO STYLE 0426
Folding box with tuck in lid



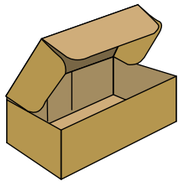
FEFCO STYLE 0203
Regular lap end case with fully overlapping flaps.



FEFCO STYLE 0713
Crash lock bottom



FEFCO STYLE 0421
Folding box with locking sides.



FEFCO STYLE 0427
Folding box with tuck in lid

For more information on all Fefco sizes please visit: www.fefco.org/technical-information/fefco-code

Why choose single-wall cardboard boxes?

- Ideal for light to medium packaging use, posting and storage
- Created from a single corrugated layer of cardboard, with a Kraft outer
- Durable and strong, our single wall boxes retain their shape even fully loaded
- Supplied flat packed for convenience, and easily assembled in seconds
- Made from biodegradable cardboard for an environmentally friendly, recyclable storage solution

IN THE DETAILS

For many of our customers we stock their requirements on a call off basis, served using our next day delivery service.

This is a must for the large user when packing storage space is at a premium. Cartons can be printed to your design specifications, a great way to promote your company.

Benefits of double-wall cardboard boxes

- Suitable for heavy and/or fragile items, thanks to twin-fluted corrugated card
- Ideal for business use, shipping, storage and removals
- Supplied flat-packed for convenience, quick and easy to assemble
- Every one of our double-wall cardboard boxes is numbered for easy identification
- Strong and durable enough to be re-used on multiple occasions
- Made from 75% recycled materials, and recyclable after final use

CARTONS AND BOXES

BESPOKE CARTON MANUFACTURE

With our own carton manufacturing facility in Newmarket we can produce bespoke printed or plain cartons to your exact requirements.

We are able to manufacture a broad range of carton styles, which can be plain or printed, glued or stitched.

Retail and Shelf-Ready Packaging

Shelf-Ready or Retail-Ready Packs (commonly referred to as SRP or RRP) combine the traditional qualities of corrugated with brand promotion to provide a quick way for retailers to get product to shelf with minimum fuss and maximum speed, increasing 'shelf velocity.' This is an ideal solution for customers who produce product on site or provide stock directly to retail.

Our offering can include…

- High-quality printed corrugated cartons, to optimise shelf display and brand promotion
- Expertise in the best corrugated materials for producing high-quality printed packaging
- Easy-to-open cartons for the retail sector, providing an enhanced customer experience
- 3-dimensional drawings and pallet plans help to visualise the finished product

Back to Contents

Die Cut Cartons

Die Cut cartons are designed and cut using the latest CAD (Computer Aided Design facilities and can be tailored to any specific box requirements.

Our offering can include…

- The complete range of FEFCO (The European Federation of Corrugated Board Manufacturers) styles, which can be re-designed to meet specific requirements
- An experienced design team will offer tailor-made die cut packs to suit your business needs whether it's to speed up production or packing, provide a better customer experience or solve a long/short term packaging problem
- Designs can have a number of specifications including self-locking bases that 'pop' into place, tamper evident closures and more 3-dimensional drawings and pallet plans to help visualise the finished product

Heavy Duty Cartons

Heavy Duty corrugated cartons are ideal for transporting heavy goods, particularly in sectors where the majority of products are of this nature such as the engineering industry.

Our offering can include…

- Regular style heavy duty cartons and cartons that can combine with pallets and lids
- Cartons that can with-stand extreme weather conditions, reducing the need for traditional timber packing cases
- Environmentally-friendly solutions that provide adequate strength for heavy goods, with a 30% saving in CO_2 emissions
- Experienced advisors who frequently deal with customers who regularly handle component weights in excess of 500kgs

We also have another manufacturing plant in Lancing specialising in foam production. **Click to read more**

TAPES

High-quality packaging tape is an essential for any post room, packing floor or distribution centre, and at UK Packaging we've got one of the best selections of tapes on the market.

TAPES

REINFORCED WATER ACTIVATED TAPE

The adhesives in water activated tape penetrate into the fibres of the carton, creating a total bond, adding considerable strength compared with standard tape adhesive. Tamper evident for security, temperature tolerant for long term storage solutions and has 100% recyclability

PART	Size	Colour	BOX QTY	ADHESIVE
20WAT01	70mm x 100m	Brown	16	Gummed side in
20WAT02	70mm x 152m	Brown	6	Gummed side in
20WAT03	70mm x 200m	Brown	18	Gummed side out
20WAT04	70mm x 200mm	Brown	18	Gummed side in

Electronic water activated tape dispensers available including:

BP500

- Coded, tactile keypad for user-friendly control
- Triple water brush for uniform tape wetting
- Guillotine shear blades for clean tape cutting
- Large, 1 litre water reservoir for reduced downtime
- Random and pre-determined repeatable tape length setting
- Adjustable top heater for superior performance and tape adhesion
- Rugged steel frame construction covered in durable ABS plastic
- Fast output (up to 1.14 linear metre's per second)
- Works with most reinforced and paper tapes

Technical specifications:

- Machine dimensions - 457 x 305 x 267mm (L x W x H)
- Weight – 13.6kg
- Power requirement – 230V 13A

Tape Capacity

- Min/max width – 38 to 75mm
- Max roll length – 200m
- Max roll diameter – 203mm
- Max dispensing length – 2.286mtr using '2x' double length dispensing button - 3.048mtr using Auto Feed

TAPES

CROSSWEAVE TAPE

For heavy duty cartons requiring resilient strapping, cross-weave tape is an excellent packaging option. The self-adhesive plastic tape is reinforced with glass fibre strands to provide optimum tear resistance.

TAPES

UK PACKAGING PRODUCE IN-HOUSE BESPOKE PRINTED TAPE

Creating customised tape through UK Packaging Supplies Ltd is quick and easy, the whole process takes a maximum of 15 days from confirmed artwork to delivery.

We supply branded packing tape printed with your company logo, or custom tapes printed with your unique message. All custom tape is printed on high quality white polypropylene or PVC tape, and can include up to 3 different colours (excluding the white of the tape) to suit your requirements.

- Tape printed with your message or company logo.
- No origination or artwork cost (for orders above 288 rolls)
- Printed on high quality white polypropylene or PVC tape.
- 3 different tape widths available: 24mm, 48mm or 72mm x 66m long.
- Submit your artwork & make the necessary payment.
- Artwork proof will be emailed to you within 2 working days.
- Review & approve the artwork proof.
- Delivery will be a maximum of 15 working days from approval of artwork.

BARRIER TAPE

Used for marking out walkways, no-go zones and hazardous areas, barrier tape is an essential item for many businesses or event organisers

Our barrier tape is durable and weather resistant, making it ideal for indoor or outdoor use.

Customised barrier tape from UK Packaging

- It's a great way of adding value to an every day business item that can be used for marking out cordons, walkways or event areas.
- Your bespoke design, words or logo printed onto high-quality, non-adhesive polythene tape
- Strong, resilient and waterproof, ideal for indoor and outdoor use
- Creates a high-visibility cordon, increasing safety while promoting your brand
- Roll length of 300m provides multiple use

Order today on **020 8801 8144.** For details on how to supply your artwork, contact your **local depot.**

Why use a tape gun?

- Reduces waste due to more efficient tape use
- Increases packing productivity
- Provides a neat, professional seal every time
- Comfortable grip means tape dispenser can be used for prolonged periods

TAPE SEALING MACHINES

Capable of sealing up to 30 boxes per minute, our high-quality tape sealing machines bring unbeatable efficiency to busy packing environments.

At UK Packaging, we can supply the cartons, the tape and the machine for a full, ready-to-go packaging solution.

Advantages of a tape sealing machine from UK Packaging

- 100 metres of non-adhesive polythene tape
- Strong, resilient and waterproof
- Available in a choice of colours/designs to suit a range of uses, or can be bespoke printed
- Creates a clearly visible cordon, adding to staff safety

To find out more about our tape sealing machine, call our sales team on **020 8801 8144** or contact your **local depot**. You may also want to take a look at our machine tape and our range of packaging cartons.

WE STOCK & SUPPLY...

A wide range of high-quality paper sheets and rolls, including corrugated paper, tissue paper, Kraft paper and waxed paper in a selection of sizes and colours.

Manufactured from the highest-quality materials, our paper sheets and rolls can be used for wrapping, packing, void fill and more.

LOOSEFILL CHIPS AND POLYSTYRENE

Loose fill chips are one of the most versatile packing and void-fill solutions on the market, able to fill in the gaps around items of any shapes or size.

PART	DESCRIPTION	SIZE	PACK SIZE
25GLLF01	BIO DEGRADABLE LOOSEFILL	15 Cubic Feet	Per Bag
25FP001	FLO-PAK GREEN LOOSE FILL	15 Cubic Feet	Per Bag
25PCS05	POLYSTYRENE SHEETS	2400mm x 1200mm x 25mm	6
25PCS004	POLYSTYRENE SHEETS	2400mm x 1200mm x 25mm	12

CUSHIONING & PAPER PRODUCTS

AIR BAG MACHINES AND FILM

If you have an ongoing requirement for air bags (air cushions), why not invest in an air bag machine to help produce your own void-fill solutions on site?

Producing your own air bags on demand helps to reduce waste, and the machine quickly pays for itself with the savings made on packing materials.

Air cushion machines from UK Packaging

- Compatible with a choice of air cushion film types, which can be supplied with the machine
- Simple to operate and easy to maintain
- Air cushions / air bags make an ideal alternative to bubble wrap and other void fill
- Saves space as no need to store pre-made air cushions

Please see Page 66 for our range of air bag machines and film

PAPER SYSTEMS

Paper cushioning is one of the most prominent packing solutions in the fulfilment industry, used by a number of leading online retailers.

Popular due to the excellent protection it supplies as void-fill, it also represents a lower cost solution than most alternatives – and it can be created on site using one of these paper systems from UK Packaging.

Why invest in a paper system?

- Continuous production of paper cushions for high-volume packing environments
- Creates high-strength paper cushions to a pre-defined specification
- An environmentally friendly solution which uses recycled material
- Easy to use and simple to maintain

Please see Page 67 for our range of paper systems and compatible papers.

LANCING BESPOKE MANUFACTURING

UK Packaging are an authorised Jiffy foam converter and are able to manufacture press stamped and cut fitments to protect the more fragile and delicate products as required from our Lancing depot.

Our reputation has been built on service and flexibility. We offer a friendly, personal service to deliver your packaging requirements at the most competitive price.

Design, Testing & Manufacture

We design and construct packaging to suit your products, providing the maximum protection possible.

Once order is confirmed it will be processed and manufactured to an agreed specification.

Polyethylene Foam

Using computer programmes and drop curve technology, we can easily advise of the amount of foam needed to successfully protect a product. Thus ensuring maximum protection using minimum packaging.

Samples

Once a design is formulated we will make a sample either by hand, or production machinery or on a CAD table.

Heavy Duty Cases & Crates

Heavy duty grades of corrugated board can be produced for use in "export" cases to provide the extra strength required.

Timber pallets and timber/plywood crates are also produced for the "heavy duty" packaging market.

Timber used in the production is from managed, sustainable forests. It is kiln dried and is called "heat treated timber". This treatment comes with a forestry commission sanitary certificate. This number/code is stencilled or marked on the pallets or crates and is accepted worldwide to show the product conforms to import/export regulations.

- Heavy Duty (export grade) cases
- Timber / plywood, custom made crates
- Pallet bases

Expanded Polyethylene Foam

This foam is extruded into planks and has a structure of small regular cells. This structure means it has a high heat and sound insulation capacity and excellent shock absorbing properties.

The shock absorbing capacity makes it a perfect packaging medium for delicate and fragile items. It offers a "multi drop" function ensuring that goods are very well protected during transit.

- Multi drop expanded Polyethylene foam
- Polyurethane 'soft foams'
- Press cut or fabricated to suit every shape
- Polyethylene end caps, trays or corner blocks
- Inserts for carry cases
- Jiffy Polyethylene stockist

We also have a manufacturing plant in Newmarket, specialising in carton production. **Click to read more**

CORNER & EDGE PROTECTION

UK Packaging stocks and supplies a top-class range of corner and edge protectors for pallets, cartons and appliances.

For any additional information about any of these products **get in touch** with our specialists.

CORNER & EDGE PROTECTION

SOLID BOARD EDGE PROTECTION

Solid board edge protectors are an economical and effective way to safeguard the edges and corners of cartons in transit or storage.

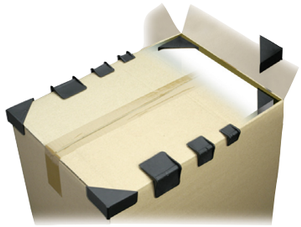
PART	SIZE METRIC	WALL THICKNESS	PACK QTY	PLT QTY
50EP001A	35mm x 35mm x 1m	3mm	50	6000
50EP002	35mm x 35mm x 2m	3mm	50	4200
50EP010	35mm x 35mm x 1200mm	3mm	50	4200
50EP007	50mm x 50mm x 1m	3mm	50	3000
50EP008	50mm x 50mm x 2m	3mm	50	3000
50EP006	60mm x 60mm x 1m	3mm	50	3000
50EP55	60mm x 60mm x 1500mm	3mm	50	3000

Bespoke sizes and printed edgeguards available on request

EXPANDABLE CORNER PROTECTORS

Expandable Corner Protectors are a more versatile alternative to solid board edge protectors, these plastic expanding corner protectors can be adjusted to fit a wide range of items.

PART	DESCRIPTION	SIZE METRIC	QTY PER BOX
50CP002	Medium Expandable Corner Protector - Black Plastic	16-40mm	1000
50CP003	Large Expandable Corner Protector - Black Plastic	35-70mm	250



STRAPPING EDGE PROTECTORS

When you're using plastic strapping to secure your shipments, these edge protectors will prevent the straps from digging in and causing damage to the carton.

PART	DESCRIPTION	SIZE METRIC	PCK QTY
50EPL01	Large Plastic Edge Protector	37mm x 32mm (For Strapping up to 30mm Wide)	1000
50EPL02	Small Plastic Edge Protector	28mm x 25mm (For Strapping up to 19mm Wide)	2000

POLYTHENE

Lay flat tubing from UK Packaging

- Available from stock in medium duty (250 gauge) and heavy duty (500 gauge) options
- Other sizes, gauges and colours on request.
- Film unrollers with integral separator bar also available.

Heat Sealers available see page 46

LAY FLAT TUBING

Layflat tubing is suitable for a multitude of packaging applications, effectively enabling you to create your own polythene bags. It's particularly suitable for the packing of long, tall items such as carpets or pipes.

POLYTHENE

Shrink film from UK Packaging

- Choose from champagne or purple tints
- We can also provide Polyolefin Shrink Film, which releases fewer odours than PVC shrink wrap and can therefore be more suitable for wrapping food products.
- Both types of shrink wraps create a strong seal, shrinking evenly in all directions.
- We can also supply shrink-wrap machines See Page 46

SHRINK FILM

Shrink film is a centre-folded film used for a wide range of packing applications, often to add aesthetic appeal to a finished product.

GAS SHRINK SYSTEMS

At UK Packaging, we supply high-quality gas shrink systems for heat-shrinking polythene film.

Easy to use, these gas shrink systems provide a simple way of protecting products and pallets, and securing loads for safe transit.

Alongside our gas shrink systems, we can also provide a wide range of compatible polythene films.

To find out more just give our sales team a call on **020 8801 8144** or contact your **local depot.**

IMPULSE HEAT SEALERS

Ideal for use in a wide range of industries, impulse heat sealers are used to create polythene and plastic bags in custom sizes.

The machines come in a variety of formats including handheld and desktop varieties, and are typically compatible with a wide range of films – though they work best with lay flat tubing.

To find out more just give our sales team a call on **020 8801 8144** or contact your **local depot.**

HEAT SHRINK MACHINES

Available in a range of sizes and formats, heat shrink machines can be used to wrap everything from individual items (DVDs, games) to full pallets.

At UK Packaging, we offer a choice of high-quality machines, with a model to suit almost every requirement.

We also offer a variety of compatible shrink wrap films, in a wide range of thicknesses.

To find out more just give our sales team a call on **020 8801 8144** or contact your **local depot.**

PALLET WRAP & STRECH FILMS

Keep your palletised goods safe and secure during shipment with UK Packaging's superb range of pallet wrap and stretch films.

PALLET WRAP & STRETCH FILMS

PALLET WRAP DISPENSERS

At UK Packaging, we offer a choice of pallet wrap dispensers – from a 100mm mini-roll dispenser to a universal metal stretch wrap dispenser for larger pallets.

Why use a pallet wrap dispenser?

- A simple, cost-effective solution for faster pallet wrapping
- Reduces stress and strain on the hands
- Compatible with a range of stretch wrap film sizes
- Mini-roll dispenser ideal for bundling smaller items

To order a hand-held pallet wrap dispenser, just give our sales team a call on **020 8801 8144** or contact your **local depot**. You might also be interested in our **pallet wrapping machines.**

PART	WIDTH	REFERERENCE
50PWD003	400-500mm	Universal Metal Stretch Wrap Dispenser
50PWD009	100mm	Mini Roll Dispenser

PALLET WRAPPING MACHINES

As well as our hand-held pallet wrap dispensers, we also offer a range of automated pallet wrapping machines for higher-volume packing environments.

These pallet-wrapping machines are capable of securing pallets in a matter of seconds, helping to achieve an efficient and effective packing operation.

Pallet wrapping machines from UK Packaging

- A range of machines to suit different environments
- Compatible with our wide range of machine pallet wrap
- Ideal for high-volume continuous wrapping
- Makes light work of larger or odd-shaped loads

To order one of our pallet-wrapping machines, just give our sales team a call on **020 8801 8144** or contact your **local depot.** We can also help you select the right pallet wrap for your machine.

STRAPPING & TIES

UK Packaging is a leading supplier of pallet strapping solutions, stocking an excellent range of hand and machine strapping in a variety of materials, colours and roll sizes.

For any additional information about any of these products **get in touch** with our specialists.

36HS13	16mm	1200m	BLACK	240kg

PET (POLYESTER) STRAPPING, TOOLS AND DISPENSERS

A stronger alternative to polypropylene strapping, PET hand strapping is suitable for more heavy duty use.

It's available from UK Packaging in a range of roll sizes, alongside a range of compatible tools, buckles, seals and dispensers.

Why choose polyester strapping?

- Offers excellent tension, and stays tight on pallets and loads
- Stronger and more resilient than other types of plastic hand strapping
- Can be applied quickly and easily using a strapping machine or hand dispenser
- Supplied on a cardboard core for easy use and storage

To order your PET hand strapping, just give our sales team a call on **020 8801 8144** or contact your **local depot.** We can also help you select the right pallet wrap for your machine.

We have a large selection of strapping tools and ancilliary products available including: Sealers; Combination Tools; Dispensers; Tensioners; Seals & Buckles

Please call our experts who will be able to advise you of the best solutions for all your strapping requirements.

STRAPPING & TIES

STEEL STRAPPING, SEALS AND DISPENSERS

Commonly used in the construction sector and well as the packaging industry, steel strapping can secure even the heaviest of loads, pallets or shipments.

It's a stronger alternative to all types of plastic strapping, ideal for loads with sharp, awkward edges.

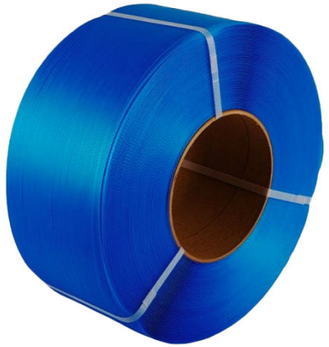
Steel hand strapping from UK Packaging

- Range of widths available to suit your requirements
- Steel strapping tools, seals and dispensers also available for a full strapping solution
- Supplied wound onto a coil for simple storage
- Our strongest hand strapping material

Give our sales team a call on **020 8801 8144** or contact your **local depot** to order your steel hand strapping, seals and dispensers today.

ON THAT NOTE...

Whether you're in need of polypropylene hand strapping, polyester strapping or steel strapping, we can also supply all the seals, buckles and tools you need for easy and effective application.



MACHINE STRAPPING AND MACHINERY

When you're strapping high volumes of cartons, pallets and packages, strapping machines are an ideal way to speed up your operation.

PART	WIDTH	LENGTH	COLOUR	BREAK STRAIN	CORE SIZE

FRICTION WELD TOOLS

UK Packaging stocks and supplies a range of battery-powered and pneumatic friction weld strapping tools, for use with polypropylene and polyester strapping.

Why use friction weld strapping tools?

- Ideal for packing environments where high-speed strapping is essential
- Provides a strong and secure seal, and gives you greater control over strap tension
- A safe strapping solution with no trailing cord or wire
- Simple strap feed and easy push button operation

Just call our sales team on **020 8801 8144** or contact your **local depot** to place an order for our friction weld tools today. We also offer a wider range of **strapping tools, tensioners** and **strapping machines.**

STRAPPING EDGE PROTECTORS

When you're using plastic strapping to secure your shipments, these edge protectors will prevent the straps from digging in and causing damage to the carton.

The straps sit neatly on the edge protector, preserving the box while holding the package firm.

About our strapping edge protectors

- Available in a choice of sizes – large or small
- Cost-effective way of preventing damage to your pallets
- Made from strong, resilient plastic
- Pre-cast channel holds strapping firmly in place

Give our sales team a call on **020 8801 8144** or contact your **local depot** to order your strapping edge protectors today – and don't forget to stock up on **plastic strapping.**

PART	DESCRIPTION	SIZE	QTY PER BOX
50EPL01	Large Plastic Edge Protector	37mm x 32mm (For Strapping up to 30mm Wide)	1000

POSTAL SIZE GUIDE

If your business relies on Royal Mail for distribution, then familiarity with the postal size guide is key to maximising your P&P profits.

Royal Mail size & weight guide (UK)

Letter

Max weight – 100g

Max length – 24cm

Max width – 16.5cm

Max depth – 5mm

Large Letter

Max weight – 750g

Max length – 35.3cm

Max width – 25cm

Max depth – 2.5cm

Small Parcel

Max weight – 2kg

Max length – 45cm

Max width – 35cm

Max depth – 16cm

Medium Parcel

Max weight – 20kg

Max length – 61cm

Max width – 46cm

Max depth – 46cm

Large Parcel

Max weight – 30kg

Max length – 1.5m (max 3m length and depth combined)

Postal Tubes

Max size – Length of the item plus 2 x diameter must be less than 104cm. Longest dimension max 90cm.

Royal Mail size and weight guide (International)

If you ship outside of the UK, the size and weight restrictions of letters and large letters remain the same.

Internationally though, all parcels must measure no more than 90cm (length, width and depth combined) with no single side longer than 60cm.

For advice on efficient posting and packaging solutions, just give us a call on **020 8801 8144** or contact your **local depot.**

PACKAGING SYSTEMS & MACHINERY

For high-volume packing environments, packaging systems can represent a very smart investment – allowing you to save time, money and storage space by creating your own packing materials on site.

For any additional information about any of these products **get in touch** with our specialists.

AIR BAG MACHINES AND FILM

If you have an ongoing requirement for air bags (air cushions), why not invest in an air bag machine to help produce your own void-fill solutions on site?

Producing your own air bags on demand helps to reduce waste, and the machine quickly pays for itself with the savings made on packing materials.

Air cushion machines from UK Packaging

- Compatible with a choice of air cushion film types, which can be supplied with the machine
- Simple to operate and easy to maintain
- Air cushions / air bags make an ideal alternative to bubble wrap and other void fill
- Saves space as no need to store pre-made air cushions

We supply a wide range of airbag systems to suit your packing requirements. Airbags are available in a variety of sizes, styles, thicknesses and colours. A selection of stock sizes shown below. Call our sales team for further details.

PACKAGING SYSTEMS & MACHINERY

PAPER SYSTEMS

Paper cushioning is one of the most prominent packing solutions in the fulfilment industry, used by a number of leading online retailers.

Popular due to the excellent protection it supplies as void-fill, it also represents a lower cost solution than most alternatives – and it can be created on site using one of these paper systems from UK Packaging.

Why invest in a paper system?

- Continuous production of paper cushions for high-volume packing environments
- Creates high-strength paper cushions to a pre-defined specification
- An environmentally friendly solution which uses recycled material
- Easy to use and simple to maintain

We supply a wide range of paper systems to suit your packing requirements. Papers are available in a variety of colours and thicknesses. Call our sales team for details.

PART	DESCRIPTION	WEIGHT	SIZE
40GE01	GE 1 ply paper	90gsm	600mm x 325m

43PPM14	Paperplus 2 ply track paper	70gsm	280m fanfold
50PPLUS02	Papillion fanfold 8kg block	70gsm	280m fanfold

Available in a wide range of colours!

PALLET WRAPPING MACHINES

As well as our hand-held pallet wrap dispensers, we also offer a range of automated pallet wrapping machines for higher-volume packing environments.

These pallet-wrapping machines are capable of securing pallets in a matter of seconds, helping to achieve an efficient and effective packing operation.

Pallet wrapping machines from UK Packaging

- A range of machines to suit different environments
- Compatible with our wide range of machine pallet wrap
- Ideal for high-volume continuous wrapping
- Makes light work of larger or odd-shaped loads

To order one of our pallet-wrapping machines, just give our sales team a call on **020 8801 8144** or contact your **local depot.** We can also help you select the right pallet wrap for your machine.

TAPE SEALING MACHINES

Capable of sealing up to 30 boxes per minute, our high-quality tape sealing machines bring unbeatable efficiency to busy packing environments.

At UK Packaging, we can supply the cartons, the tape and the machine for a full, ready-to-go packaging solution.

Advantages of a tape sealing machine from UK Packaging

- Efficiently seals the top and bottom of cardboard cartons in seconds
- Compatible with industry standard machine tape
- Establishes a strong and consistent seal every time
- Adjustable top guides and tape tension allow the machine to seal a wide range of box sizes

To find out more about our tape sealing machine, call our sales team on **020 8801 8144** or contact your **local depot.** You may also want to take a look at our **machine tape** and our range of **packaging cartons.**

CARDBOARD SHREDDERS

Cardboard shredders allow you to create your own cost-effective void fill material from cardboard that would otherwise go to waste.

These high-quality machines help you save money on packing materials while simultaneously reducing your environmental footprint – turning cardboard waste into thin strips that can be used for packing parcels.

Cardboard shredders from UK Packaging

- A range of models available to suit your needs
- Choose from space-saving cardboard shredders to larger, high-performance industrial models
- Provides an excellent alternative to bubble wrap and foam fillers
- Helps fulfil environmental objectives and reduce waste

To speak to us about our cardboard shredders, please just call our sales team on **020 8801 8144** or contact your **local depot.**

FOAM-IN-PLACE SYSTEMS

Foam-in-place systems allow you to produce highly protective polyurethane foam packages on site, which can be moulded around items to cushion them in transit.

The process involves two chemicals combining to form a unique foam mould which then expands – effectively protecting your product in its own bespoke shell within the box.

Why choose a foam-in-place system?

- Foam provides exceptional protection for fragile items, or for electronic items sensitive to movement and shock
- System can be used to create bespoke cushioning for items and cartons of any shape or size
- Easy to use, foam-in-place systems help to speed up your packing process

Call our sales team today on **020 8801 8144** or by contacting your **local depot** for more information, or to place your order.

FRICTION WELD TOOLS

UK Packaging stocks and supplies a range of battery-powered and pneumatic friction weld strapping tools, for use with polypropylene and polyester strapping.

Why use friction weld strapping tools?

- Ideal for packing environments where high-speed strapping is essential
- Provides a strong and secure seal, and gives you greater control over strap tension
- A safe strapping solution with no trailing cord or wire
- Simple strap feed and easy push button operation

Just call our sales team on **020 8801 8144** or contact your **local depot** to place an order for our friction weld tools today. We also offer a wider range of **strapping tools, tensioners** and **strapping machines.**

GAS SHRINK SYSTEMS

At UK Packaging, we supply high-quality gas shrink systems for heat-shrinking polythene film.

Easy to use, these gas shrink systems provide a simple way of protecting products and pallets, and securing loads for safe transit.

Alongside our gas shrink systems, we can also provide a wide range of compatible polythene films.

Call our sales team on **020 8801 8144** or contact your **local depot** for more details.

IMPULSE HEAT SEALERS

Ideal for use in a wide range of industries, impulse heat sealers are used to create polythene and plastic bags in custom sizes.

The machines come in a variety of formats including handheld and desktop varieties, and are typically compatible with a wide range of films – though they work best with lay flat tubing.

Give our sales team a call on **020 8801 8144** or contact your **local depot** to place your order.

PACKAGING SYSTEMS & MACHINERY

HEAT SHRINK MACHINES

Available in a range of sizes and formats, heat shrink machines can be used to wrap everything from individual items (DVDs, games) to full pallets.

At UK Packaging, we offer a choice of high-quality machines, with a model to suit almost every requirement.

We also offer a variety of compatible shrink wrap films, in a wide range of thicknesses.

Speak to our sales team on **020 8801 8144** or contact your **local depot** to find out more.

MACHINE STRAPPING & MACHINERY

When you're strapping high volumes of cartons, pallets and packages, strapping machines are an ideal way to speed up your operation.

Here at UK Packaging, we supply a range of high-spec strapping machines, plus all the compatible machine strapping you need.

About our plastic machine strapping

- Available in a range of roll lengths, widths and colours
- Choice of stock core sizes (200mm x 190 or 280mm x 190mm), with other sizes on request
- Can be used with semi-auto or fully automatic strapping machines
- Semi automatic machines must be manually fed with the strapping, while automatic machines auto-feed

If you'd like to find out more about our strapping machines or place an order for plastic machine strapping, just give our sales team a call on **020 8801 8144** or contact your **local depot.**

For lower-volume use, **hand strapping dispensers** may offer a viable alternative.

See page 53 for a list of our machine strapping available.

SUNDRIES

A one-stop shop for all your packaging and protective materials, UK Packaging also offers a range of sundry items to help you stock up on other essentials at a great price.

ENVIRONMENTAL POLICY

It is the policy of UK Packaging Supplies Limited to ensure that its activities are managed so as to minimise any impact on the environment, so far as is reasonably practicable.

In order to achieve this:

- The Company will manage its product range to ensure that products in the range do not cause unacceptable environmental damage through its receipt, storage, and use or disposal phases.
- The Company will develop the energy efficiency of its vehicle fleets, so far as is reasonably practicable. Future purchases and leases of vehicles will take account of the environmental impact of the models selected.
- The Company will aim to improve the energy efficiency of its premises. Existing buildings will be adapted where practicable to improve their energy efficiency. When considering future purchases or leases, account will be taken of the energy efficiency of the building, and of the energy costs involved in running those buildings.
- Wherever possible the Company will seek to minimise waste:
  - Through reduction in unnecessary consumption
  - Through purchasing recycled products and packaging for its own use
  - By sending used products and packaging to be recycled
  - Through reuse of packaging received.
- Employees at all sites will be encouraged to travel to work using environment friendly methods such as car sharing or use of public transport where practical.
- The Safety & Environmental Manager is responsible for assisting management to implement the Company's Environmental Policy.
- The Company will comply with all UK environmental legislation.
- The Company will aim for continual improvement in order to lessen its impact on the environment

TERMS & CONDITIONS OF SALE

SELLERS CONDITIONS OF SALE APPLY

1. These terms and conditions of sale shall apply to and govern. Any contract between the Seller and the Buyer to the exclusion of any conditions contained on or in any order form letter, receipt acknowledgment, or the Terms and Conditions shall be effective unless expressly agreed by the Seller in writing.

2. PRICES All price quotations are calculated from the costs applicable at the date of such quotation. If there is any increase in such costs between the date of quotation and despatch the Seller may increase the quoted price accordingly. On printed orders the price confirmed excludes artwork etc which may be charged separately.

3. QUOTATIONS Quotations indicate the price at which the Seller would be willing to supply goods if a written order is placed within 30 days. Otherwise they are not offers to supply goods and any order placed on the basis of a quotation must be accepted by the Seller for a contract to arise. Clerical errors are subject to correction.

4. DELIVERY Unless otherwise agreed in writing the Buyer shall be bound to accept goods ordered by him on being notified by the seller that they are ready for delivery. **b)** If the buyer fails to take delivery at the time required by the Contract the Seller shall be entitled without prejudice to any rights it may have to treat the Contract as at an end and to resell the goods, or to invoice the goods whereupon payment in full shall become due and in either case charge at rates giving an economic return for the handling and storage of goods from the invoice date to the eventual date of delivery to the Buyer or disposal elsewhere as the case may be and the Buyer shall be liable to pay any premium in respect of the insurance of such goods from the date on which he is notified that the goods are ready for delivery.

c) If goods are contracted to be delivered by instalments, late delivery of one instalment shall not entitle the Buyer to reject any other instalment under the contract. **d)** (i) Any date of delivery given by the Seller to the Buyer shall be an estimate only and while the seller will endeavour to comply with any such date it shall not be responsible for late delivery.

(ii) Without prejudice to the generality of the foregoing the Seller shall not be liable for late delivery of failure to deliver through any cause which is beyond the control of the Seller.

5. RISK All Goods are at the Buyers risk from the time of delivery or collection by the Buyer or his agent, or delivery to the place stipulated in the contract.

6. RETENTION OF TITLE. a) Goods delivered to the Buyer shall remain the property of the Seller until all sums due to the Seller from the Buyer in respect of goods or otherwise are paid to the Seller. In the event of any default by the Buyer in payment of any such sum the Seller shall be entitled to retain possession of the goods. **b)** Where payment is affect by cheque the Seller shall not have received payment until that cheque has been honoured and the amount credited to the Seller's bank account **c)** Until sums due from the Buyer to the Seller have been paid or until resale in accordance with sub-paragraph d) of this clause the customer will keep and mark the goods in such a way as to show they are property of the Seller and shall hold the same as bailee of the Buyer. **d)** The Buyer shall be entitled as agent of the Seller before the property and the goods have passed (but subject to any lein or right of retention on the part of the Seller).

(i) To resell the goods or any part thereof but shall pay to the Seller the proceeds of the sale or such part thereof as maybe necessary to pay all sums due to the Seller from the Seller and until such payment should hold proceeds from the sale on trust for the Seller. (ii) To use the goods in the ordinary course of his business.

7. LAW Any agreement incorporating these Conditions shall be governed by English Law.

8. PAYMENT All sums due to the seller shall be paid by the last day of the month after the month of delivery. In fault the seller may: **a)** Suspend delivery under all or any contracts with the buyer. **b)** Charge interest at the rate of 5% over Lloyds Bank Minimum lending rate from the day following that on which payment was due.

9. TERMINATION The Seller shall have the right immediately to terminate the contract at any time upon occurrence of any of the following events. **a)** If the Buyer commits any act of bankruptcy or compounds or makes arrangements with his creditors or executes a bill of sale on his goods or any of them or if any execution or distress is levied upon the goods of the Buyer. **b)** If the Buyer being a company is wound up either compulsory or voluntarily or a receiver of its assets is appointed. **c)** If the Buyer commits any breach of contract.

Upon any such termination the Seller shall have the right to be paid the price of goods manufactured or sold prior to the date of termination and the Buyer shall take over and pay for at the current price such materials as have been allocated by the seller to the contract.

10. CONSEQUENTIAL LOSS Without prejudice to the generality of the foregoing provisions the Seller shall not in any event be liable to the Buyer for any indirect or consequential loss or damage.

11. FORCE MAJEURE The Seller shall not be liable for failing to perform the contract whether wholly or partly by any circumstance or circumstances outside the Sellers control.

12. FITNESS FOR PURPOSE Where the goods are required for a for a purpose other than the normal or usual purpose for which such goods are commonly supplied then no condition or warranty of fitness for the purpose of the goods shall be implied unless the Buyer has made known to the Seller in writing the exact purpose for which the goods are intended to be used, on or before the making of the contract.

13. SIZE OF MATERIALS Unless specifically warranted (in writing) as accurate sizes all sizes referred to on price lists, estimates or brochures are approximate only.

14. AVAILABILITY OF GOODS. Any quotation given by the Seller shall not constitute an offer for sale or a representation that those goods are available for sale.

15. QUANTITY The Seller cannot guarantee exact quantities in respect of any goods supplied and shall be deemed to have fulfilled its obligations under the contract by delivery or manufacture of a quantity plus or minus 10% of the quantity specified in the contract and the buyer shall pay the contract rate for the actual quantity delivered.

16. PRINT ORIGINATION WORK. All material produced in origination work remains the property of the Seller unless paid for by the Buyer.

17. PROOF READING No responsibility shall be accepted by the Seller for any errors in proof submitted to and approved by the Buyer.

18. DIMENSIONS AND GAUGE Except where agreed in writing the Seller shall be deemed to have fulfilled its obligations under the contract by producing goods within the tolerances laid down by the Packaging and Industrial Films Association (P.I.F.A.). In general sizes will be controlled to within plus or minus 3% and film gauge to within plus or minus 10%. Corrugated cartons are subject to a manufacturers tolerance of plus or minus 3-5mm on the creases.

19. INK COLOURS Whilst the Seller will take all reasonable steps to try to match colour this cannot be guaranteed and the contract shall be deemed to have been performed by delivery of goods of the general shade and density of colour stipulated.
